Submitted to the Council

Mysore 52

Petitions Nos. 787 & 8/6/92
& 49 & 6/7/92

Petitioner:— Bangaramma
residing at Mysore.

Petitioner, Bangaramma and her son-in-law Ananta-ramayya respectively hold the marginally described* Survey numbers 142 and 135 in the village of Ulnahalli, Mysore Taluk. These lands were classed as dry lands before the Survey, but at the Survey Settlement which took place in 86-87, they were assessed at light wet or Bengar rates, on the ground that they received some water by percolation from the

	211	dry 0-1-0	0-9-4
134 & 135	210	dry 0-2-13	1-2-6

Note:— Survey No. 134 is now in the Khata of a 3rd person.

the hill-side.

In March 87, the Petitioner requested the Survey Superintendent to reassess the lands at dry rates. He declined to do so on the ground that work had been done — according to rules.

The Petitioner fell into arrears and steps were taken to recover them, when in March 91, she addressed the General Assistant Commr, who under instructions from the Dy Commr declined to interfere with the assessment fixed. The last order stating that nothing could be done in the matter was given by the Dy Commr in April 1892. The appeal is against this order.

As regards both the lands the Petitioner contends,—

(1) that the lands in question continued to be classed as dry lands before the Survey Settlement;

(2) that wet crops were never grown on them

(3) that the lands command no supply of water, and

(4) that the real state of things has not been ascertained by actual inspection.

The only point for consideration is whether the lands have been properly charged with a wet rate of assessment.

During the Phool Pahani of 1887, the officer that tested Survey No. 142 noted the Petitioners request for classing the land as dry & observed that the land was not fit for wet cultivation and that it contained no wet crop then, but that the land was near a Halla

Ultra vires

On 17th April 1891, Shanbhog Dasappa deposed before the Amildar that the lands were assessed at wet rates — because

because they had been cultivated with wet crop at the time of the Survey measurement; that the lands were cultivated with wet crops in 1883-84 and 84-85 and that water does not percolate into the land in a large quantity. But the same Shanbhog stated before the Amildar again, on 30th April, that the lands were never cultivated with wet crops either before or after the Survey, and that they derived no supply of water from any source whatever. The Amildar recommended that the Petitioners prayer was reasonable.

The Dy Comm's order is based upon the Survey Superintendent's answer to him which is to the effect that the two lands depend for their supply of water on a

In this case what does the Amildar who must have personally visited the lands say on the point?

Submitted.

It is difficult to say if the Amildar personally inspected the locality. He nowhere says that he did. In his report he gives an extract from the Khot Sahami Regr regarding No 142, refers to the Khs second deposition & to entry in the Kaul Baki, & states as follows:- "The representation of the Petitioner that as the land which was formerly classed as dry has now been classed as wet without any source of water supply, the old dry rate should be confirmed, appears to me to be proper." The passage may also be rendered thus: "As the land which was formerly classed as dry has now been classed as wet without any source of water supply, the representation of Petr that the old dry rate should be confirmed, appears to me to be proper." It is not clear whether the Amildar's opinion is based on personal knowledge or on the depositions of the Khandhoy & other records referred to.

The Survey Classer has recorded that the holders of the lands in question use the percolation water & Halla water for the wet portion during the rainy season, while the Khandhoy has made conflicting statements.

× asks Mamlatdar to depute the Amildar to inspect the lands & report on the point

GK
10/3/93

Submitted -

The Amildar has, after personal inspection, reported as follows: — There are wet lands of some other ryots in the vicinity of the lands in question. All these being low-ground, a large quantity of water collects there during the rainy season, leaving moisture or dampness (Jôpu). As these lands were under wet cultivation at the time of classification, they were classed as wet, and assessed at the Settlement at the lowest (wet) rate of Rs. 3 per acre. By the side of these lands flows a Halla from the Khamundi Hill. A large quantity of water is said to flow in it in the rainy season. It appears also, that Govt Bhangaramma caused a dam to be put up across the stream some years ago

in order to irrigate her lands and was using the water thereof. The dam is now in disrepair. The lands in question depend largely on rain-water. If the dam is repaired the water of the Halla will be available. The whole extent of the lands is fit for wet cultivation being low-ground. All lands similarly situated, in the Taluk, have been assessed at wet rates. (vide Deputy Com^r's letter No 1314 dated 28 April 1893)

The Pet^r Bhanparamma represents as follows with reference to the Amildar's inspection & report :— The Amildar (B. Seetaramiah) is seen to have made his report without a correct knowledge of facts. The lands were unfit for even dry cultivation prior to the Survey & were assessed at Huligaval rates, viz. Rs. 2-4-. This may be seen from accounts in the Taluk & District offices. The situation of the lands is such that if a crop is raised, a flood of rain-water will carry it away leaving ruts behind or the flood covers the land with sand & thereby destroys the crop. There are clear traces of this even now. The Pet^r laid out money & rendered the land fit for dry cultivation : for having done which, wet rate was unjustly fixed at the Settlement. Because the land was to assessed, the Pet^r, an ignorant woman, caused a dam ~~to~~ to be put up, at a cost of hundreds of Rupees, across a stream which flows when there is a fall of rain — in the hope that she could irrigate the land & raise wet crop ; but not even on a single

occasion was wet crop raised further the dam breached. The lands have no source of water supply.

The Petr states that the arrears due on the lands are advertised for sale on 1st May and prays that pending the decision of her appeal, the sale may be ordered to be stayed, or if it has been held, the order of confirmation may be deferred.

23/5

I

I see no sufficient grounds to interfere with the Survey Officer. There are other lands which are similarly situated and the Petr is not, in my opinion entitled to any special consideration. The case should be put up for orders of the Board

I would reject the appln

23/5/93

The Asst Collr charges Rs 3 per acre. I would not therefore interfere with the settlement. But I must say, that in such cases, the lands ought to be measured as Dry.

23/5/93

May (the Asst Collr) put up all papers.

To

The Chief Secretary to the Dewan of Mysore,
Bangalore

SIR,

With reference to your docket no 15166 88-92 of the 14 March last, calling for further report on the petition of Bhangaramma of Ellpore, as to whether her lands in the Oothanahalli village are capable of being irrigated, and if so from what source, I have the honor to state that the amildar of the Ellpore Taluk was deputed to inspect the lands as directed and his report on the subject no 932 of the 17 Instant with enclosures is submitted herewith. He states that these and other similarly placed wetlands belonging to other ryots are situated in a valley to the east of the Oothanahalli village at the

foot of the Chamundi hill where water stagnates and forms springs. As the lands had been cultivated wet at time of classification they were assessed at the minimum wet rate of 3 Rupees per acre by the Survey Department. The Amildar adds that there is a halla" by the side of these lands running from the Chamundi hill which drains a large quantity of water during the raining season. The said Bhangaramma had put up a dam across the said "halla" to take water for irrigation of these lands. The dam is now out of order. Owing to scanty rain fall the springs have failed and the lands have in consequence to depend only upon rain water.

I have the honor to be
&c,

MYSORE DEWAN'S OFFICE.
PETITION DEPARTMENT.
REG'D. No. 2864
DATE 1-5-93

Bangalore

May it please your Honor

The humble petition of the undersignes Bhangaramah daughter of the late Pashakar Sathagadar Ramiah residing at mundi mahala, mysore city, most respectfully sets for as follows —

I The humble memorialist possesses dry lands Nos 135-42 in Woothanahally grama, mysore Talook. This land has been assessed at wet land rates. The humble memorialist submitted the Copies of the Order passed by the Survey Superintendent - No 584 dated 12th March 1887 and of the endorsement by the said officer in Pahani account of the years 1886-87 to your Honor on 24th May 1892 for which your Honor was pleased to order the No 787 dated 30th June 1892 that the true Copies of the said orders should be submitted to your office Except this order the humble memorialist got no reply.

II The Talook Authorities very often issued notices to your Memorialist that they would proceed to sell the land by public auction for the revenue due to Government, On this your memorialist submitted a memorial to the Deputy Commissioner of the Mysore District to Suspend the said sale until the case has been finally disposed of the appeal by your honor.

III. The said dry land was not even fit for dry cultivation and the memorialist was without any advantage, paying Kanadayam regularly to Government, the humble memorialist expended a large amount to bring it under dry Cultivation, and after it has been assessed at wet land rates, the Kanidayam has been in arrears. The Talook Authorities, without Considering the State of the said land, have fixed date before 1st May 1893 for Sale by public auction for arrears of revenue bought at wet land rates, If the land be sold under these Circumstances, the humble memorialist will surely be at a very great loss and to what extent it will be so, need not be further argued.

III. Under these circumstances, the memorialist most respectfully and humbly begs that your honor may be pleased to order the Deputy Commissioner to Suspend the Sale until the Case has been finally disposed of and inspect the said land

whether it is liable to wet or dry assessment.

I beg to Remain
Sir
Your most obedient and humb
Servant.

SIR,

With reference to your official Memo, No 29, dated 8th July 1893, forwarding petition received from Bhangarama, and requesting to submit the records connected with it, with an extract from Pahani accounts &c I have the honor to submit herewith an extract from the Pahani account Commencing from the year Sarvajittoo (1887-88) received from the Amildar, and to state that the Pahani accounts of the years prior to the above, are not forthcoming in the Taluk records owing to the disappearance of the dismissed Shanbagu Chendrasekhariah of this Village.

The extract shews that wet crops were raised on a portion of the land only in 1887-88.

The Amildars report received on the 15th Instant, and the Petition received with the Memo under reply are

are herewith enclosed. The Amlekar has been asked to hold the sale of the land in abeyance till receipt of Government Orders.

I have the honor to be
